GAME TIME

1. Form two teams - we're closing the partition! One team is diamonds (diamanti), the other team is stars (strela).
2. Take a timezones worksheet.
3. On the timezones worksheet, pick a city marked by a diamond if you're on diamonds, and a city marked by a star if you're on stars.

GAME TIME

4. We've stopped time, so the time is PERMANENTLY 12pm GMT+0 / Lisbon time. You CAN use the table on the REVERSE side to KEEP TRACK what time it is for EVERYONE in each city.
5. You need to figure out where EVERYONE on the other team is by ASKING questions about what time it is for EACH member of the opposing team.
6. On your turn, you select ONE member of the opposing team to call.

chomah

Yo chomah kung Martha.

GAME TIME

1. BECAUSE THIS IS AN INTERNATIONAL CALL, YOUR CONNECTION IS SPOTTY. ROLL THE DIE TO FIND OUT HOW SUCCESSFUL YOUR CONNECTION IS.
1,2 : Nteh redi. YOUR TURN IS OVER.
3,4: Teng redi fraku. YOU CAN ASK ONE QUESTION.
5,6 : Teng redi forsa. YOU CAN ASK TWO QUESTIONS.
8. IF YOU HAVE A SUCCESSFUL CONNECTION, YOU CAN ASK THAT OPPOSING TEAM MEMBER WHAT TIME IT IS FOR ANY OF THEIR MEMBERS.

GAME TIME

9. Select two members of your team to be CAT INSURANCE AGENTS.
10. If a member of the opposing team calls one of your team's CAT INSURANCE AGENTS, the CAT INSURANCE AGENT gets to ask two questions from the member of the opposing team instead of the other way around.
11. You CANNOT lie to ANYONE, including CAT INSURANCE AGENTS.

GAME TIME

12. Now, we've restarted the normal flow of spacetime. Unfortunately, the high number of cat insurance agents has caused damage to the timestream and means that times of the day now happen out of order.
13. You're still located in the same cities you were previously. Each turn, send a person up to the partition.

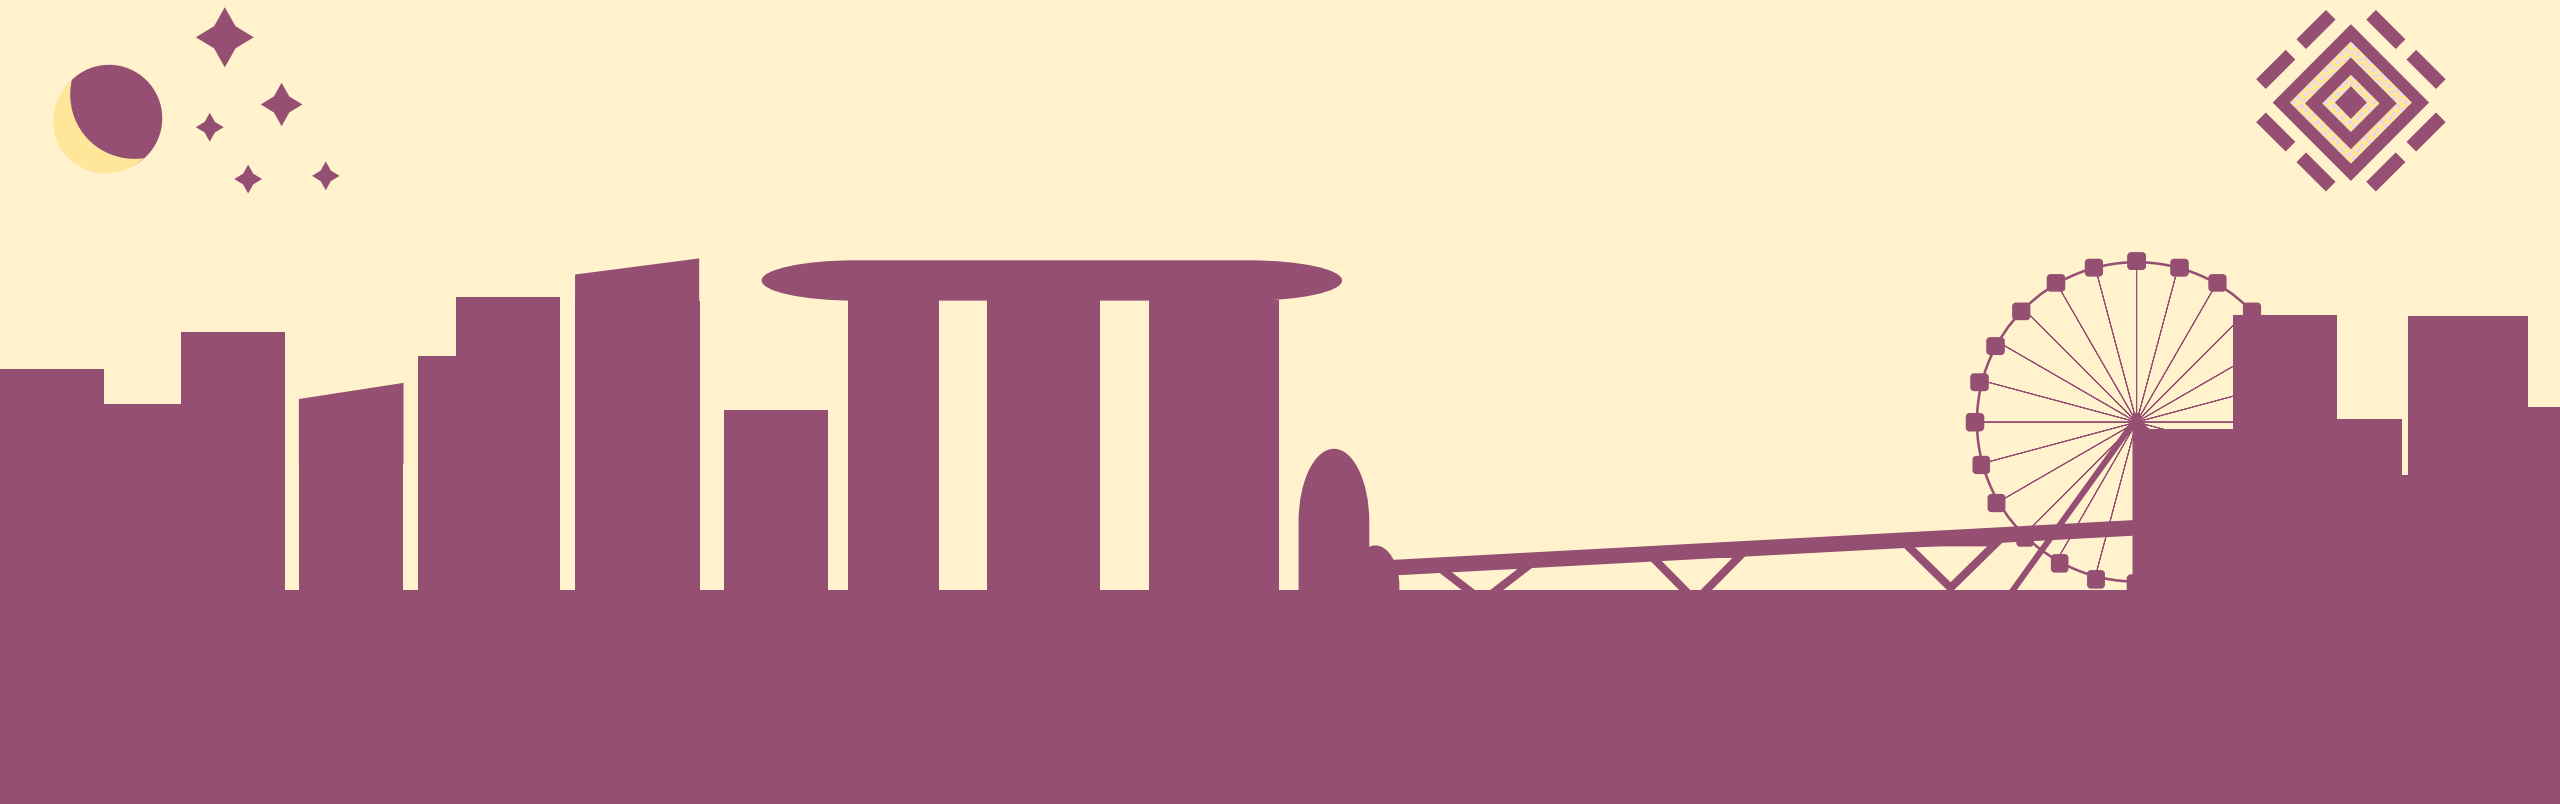

GAME TIME

14. Fuad will tell you the time in Lisbon (GMT+0).
The first person to figure out the time in their city and shout it out wins a point for their team.

Kabakatra

A) Two sentences using time words!

B) All the things that were difficult for you today.
